  - a. We are still on track for groundbreaking to begin in the spring of 2020.
  - b. Have identified about \$12 million in pledges/donations out of the \$18.5 million needed to start the building project.
  - c. Architects believe that the construction project should take approximately 18 months, but it could be longer than that.
  - d. Move out of the building will more than likely occur at the end of the spring 2020 semester. Would be displaced for at least 2 summers and an academic year.
  - e. There are options for relocation and faculty need to think about how they will be able to share spaces; we need to a flexible in scheduling and possibly working from home while keeping a small space on campus available to meet with students.
  - f. Dr. Grimes and Dr. Harris will put together a Qualtrics survey to send out to faculty to prioritize faculty expectations regarding office and classroom spaces available.
  - g. Current spaces available on campus are:
    - Whitesitt Hall – old counseling center (2<sup>nd</sup> floor)
    - Hartman Hall - old ROTC offices and classrooms
    - Old Student Health Center – currently in use by the Band
    - Shirk Hall Annex – 1<sup>st</sup> floor where Enterprise PSU offices were located

Dr. Grimes reviewed photos of each of the areas. Discussion followed on the spaces available. Numerous questions were fielded and the pros and cons about each of the spaces were discussed.
